

## eni i-Sigma special M 10W-40

**eni i-Sigma special MB 10W-40** is a multigrade oil of synthetic technology suitable for heavy-duty diesel engines operating under severe conditions. It permits long oil-drain intervals and fuel economy.

### Characteristics (typical figures)

SAE Grade		<b>10W-40</b>
Density at 15°C	kg/m <sup>3</sup>	860
Viscosity at 40°C	mm <sup>2</sup> /s	93
Viscosity at 100°C	mm <sup>2</sup> /s	14.2
Viscosity at -25 °C	mPa·s	6400
Viscosity Index	-	160
Flash Point COC	°C	240
Pour Point	°C	-36

### Properties and performance

- **eni i-Sigma special MB 10W-40** limits wear and minimizes deposit build-up inside the engine.
- The SAE 10W-40 grade allows the usage under a wide range of ambient temperature. The product stays fluid and facilitates the engine start-up at low temperatures while keeping viscosity high enough at high temperatures.
- Furthermore the inherent fuel saving properties of the SAE 10W-40 grade, allow a reduction in fuel consumption compared to traditional Diesel lubricants.

### Specifications

**eni i-Sigma special MB 10W-40** is officially approved or meets the requirements of the following service specifications:

- MB 228.3
