

## APPLICATIONS

**Eni Multitech CT 60** is a special lubricant suitable for use in Caterpillar machineries. It can be used for lubrication of transmissions, final drives, differentials, winches, clutches, gears and bearings.

## CUSTOMER ADVANTAGES

- **Eni Multitech CT 60** has a balanced formulation that gives maximum life to the frictional material in Powershift transmissions and eliminates brake chatter in wet brake applications.
- Meets the severe requirements of Caterpillar TO-4 specification, which includes specific frictional requirements and antiwear properties.
- Even if it is not addressed to engine applications, **Eni Multitech CT 60** supports engine oil performance API CF/CF-2, keeping machinery safe from any risk of failure for misuse.
